Combining my Electrical and Electronics Engineering background with professional software development experience, I develop enterprise-scale web applications using modern technologies. With a strong focus on React, TypeScript, and .NET, I build solutions that prioritize user experience, performance, and sustainable software architecture. I have experience in business process management, inventory and operations systems, real-time data-driven applications, and reporting solutions. Actively involved in all stages of the product development lifecycle, from analysis and design to deployment and maintenance, I contribute to projects with a collaborative, results-driven, and proactive mindset.

PERSONAL INFORMATION

Military Service : Completed

Date of Birth Tarihi: 09/08/1990

Languages: English B2

PROFESSIONAL EXPERIENCE

FULLSTACK DEVELOPER

TCDD Teknik - Ankara- 03-2022 - 08-2024

Developed large-scale enterprise web applications using React.js, .NET Core, and Material UI as part of corporate digital transformation initiatives. Contributed to complex multi-module projects, including a Port Management System, by transforming Figma-based designs into pixel-perfect user interfaces. Worked extensively with complex JSON data structures and successfully implemented frontend-backend integrations to ensure seamless data flow and system functionality.

FRONTEND DEVELOPER

BTS-GROUP - Ankara- 08-2024

Worked as a Frontend Developer on server virtualization and automation products. Contributed to the development of scalable and maintainable web applications by building flexible and sustainable frontend architectures. Processed complex datasets and developed integrated, pixel-perfect, and performance-oriented user interfaces. Actively participated in all phases of the software development lifecycle, from requirements analysis and design to development, testing, and deployment.

FOUNDER & SOFTWARE DEVELOPER

LIVENTA TEKNOLOJİ - Ankara- 09-2025

Founded Liventa Teknoloji and currently lead the development of software solutions focused on inventory management and operational process automation. Designed and developed Liventa Inventory Management System for jewelry businesses, providing real-time stock tracking, sales management, reporting, analytics, and multi-branch operations. In parallel, developed a Transfer Management Platform for tourism and transportation companies to streamline reservation, vehicle, driver, and operational workflows. Responsible for product planning, software architecture, frontend and backend development, deployment, and maintenance while managing the complete software development lifecycle from concept to production.

EDUCATION

Kırıkkale University 09.2009 – 06.2011

Electrical Automation

Atilım University 10.2012 – 12.2019

Electrical and Electronics Engineering (English)

BilgeAdam Academy 03.2021 – 10.2021

Full Stack Software Development Training Program

SKILLS & COMPETENCIES

TECHNICAL SKILLS

Frontend	State Management & Data Fetching	Tools & Methodologies
• React.js • Next.js • TypeScript • JavaScript (ES6+) • HTML5 • CSS3 • Tailwind CSS • UnoCSS • Material UI (MUI) • Ant Design	• TanStack Query (React Query) • Redux Toolkit • RTK Query • Zustand • Context API	• Git • GitLab • Jira • Confluence • Agile / Scrum • Figma • Docker • Nginx • Oracle Cloud
Frontend Architecture & Libraries	Backend & Database	
• Atomic Design • React Hooks • Custom Hooks • Formik • Yup • i18next • Storybook	• .NET • ASP.NET Core • C# • Node.js • PostgreSQL • MongoDB • REST API • SignalR	

PERSONAL COMPETENCIES

- Strong team collaboration skills
- Analytical thinking and problem-solving abilities
- Ownership and accountability mindset
- Effective time management
- Results-oriented approach
- Attention to detail
- Strong communication and coordination skills

CERTIFICATIONS

- Coderspace - Product Management
Certificate 05-2025
- RiseIn ICP.HUB TURKEY - Internet Computer
Motoko Certificate 06-2024
- BilgeAdam - Boost Yıldız Yazılımcı Certificate
10-2021
